NEW SEEDLING CAMELLIAS

After over twenty years of growing Camellias from seed, we are pleased to offer these outstanding varieties of our own originations.

We have flowered thousands of seedlings in the past, only a few of which were worthy of letting bloom a second time. Those showing superior traits have been under close observation. Before being placed on the market they are tried under glass and out of doors, and even then a very small percentage is worthy of propagating and naming.

We honestly and sincerely believe that our seedlings released each year will be more than satisfactory as they are most outstanding in their season of bloom.

We invite you to see these, and others not yet released, in bloom at our nursery, **This Season.**
